

Denise Fenzi

Problem Solving for Obedience and Rally!

February 4th and 5th, 2012 - Pflugerville, TX

Two days jam packed full of problem solving for competition obedience or Rally! From beginner or intermediate to advanced, working participants will not only get to work with Denise to problem solve their own issues, but you'll get to observe as Denise works one-on-one with a total of twenty dogs across the two days and see her creative problem solving for a wide range of issues. Even if two dogs have the same presenting issues, chances are, Denise will handle them in different ways, depending on the individual dog and handler. You'll observe while the dog and handler teams practice with feedback and tweaking from Denise.

Denise's energy and fun, motivational methods will bring you and your dog to a new level in competition! She will spend time discussing a variety of methods for gaining the dog's willingness to work under different conditions, and then taking that willingness to work into the ring where motivators are significantly limited. Her enthusiasm is contagious and her love for the dogs she works with is clear!

A twenty-five year veteran of training, competing, and titling in schutzhund, obedience, tracking, agility, conformation, and herding, Denise has earned many HITs in obedience and schutzhund and regularly teaches obedience for both the AKC ring and schutzhund field. She breeds working Belgian Tervuren under the kennel name "Sprite."

In competition, Denise's dogs routinely score in the high 190s in AKC obedience and high 90s in schutzhund obedience. Denise is currently competing with her dogs OTCH "Raika" Schh2 UDXTD and "Cisu" Schh3 UDXTD. Denise will be available for private sessions following the seminar weekend as well.

Work one day, audit the other: \$200

Work one day: \$135
