

BUDDY'S CHANCE, LLC

Puppy Vaccination Form

5501 N. Lamar Blvd., Ste. A-133, Austin, TX
www.BuddysChance.com 512-636-3793

Please note that Buddy's Chance requires this form for all puppies entering our puppy classes. In addition, as a precaution to help assure the safety of your puppies to the best of our abilities, we clean the training room floor with Trifectant (a product that kills Rabies, Distemper, Parvovirus, Hepatitis, HIV virus, and more) before each puppy class. Owners should understand, however, that the grass and lawn areas outside the training center and in neighborhood lawns may have feces or urine from dogs that are not vaccinated and may carry disease. **All puppies exhibiting coughing, wheezing, diarrhea, or vomiting must not attend class!**

Name of Veterinary clinic/hospital:

Name of Veterinarian:

Telephone Number:

Client's Name:

Dog's Name:

The above-named puppy has been to me for at least one office visit and has begun a course of vaccinations with me. Until this puppy has received the full course of recommended vaccinations, it is unlikely that the puppy is fully protected against diseases such as distemper, parvovirus, hepatitis, rabies, and more. Should the owner decide to enroll the puppy in a class where other dogs and puppies will be present understanding the risk that the puppy may contract a fatal or serious disease, I agree to allow this puppy to attend classes.
